

CD 1340 | 1440

DIGITAL MULTI-FUNCTIONAL SYSTEM

CD 1340 | 1440

THIS IS YOUR DECLARATION OF INDEPENDENCE.

The CD 1340 and CD 1440 digital multifunctional systems offer you all the flexibility you'll ever need. With copying, printing and colour scanning as standard, on both models, and fax on the CD 1440, these small but mighty machines will handle any job quickly and efficiently. Whether your working environment is a mid-size department, a large team, a medical practice, a law firm or a communications centre – these reliable all-in-one solutions are incredibly useful and a great addition to any office. With an output speed of 40 A4 pages per minute, a warm-up time of only 22 seconds and a first page out in 7 seconds, these two digital systems provide a throughput speed that's hard to beat.

ALL YOU WANT AND MORE.

Standard duplex functionality for paper-saving double-sided printing and the ability to process A6 directly from the standard cassette are just two of the many highlights offered by the CD 1340 and CD 1440. Add to this a 50-sheet automatic document feeder, a maximum paper capacity of 2,100 sheets and an expandable memory of up to 768 MB of RAM and any job is handled effortlessly. Naturally, the print quality is brilliant – not least because of the superb 1,200 x 1,200 dpi resolution. In addition a number of convenient scan functions make office life that much easier: scan to PC, scan to e-mail, scan to FTP, scan to USB, TWAIN scan and WIA scan. For ultimate convenience there are some neat little features such as the option to store complex jobs as programs, to use the USB host for USB direct printing, as well as to create up to 20 management codes. And with many standard security settings, plus an optional Card Authentication Kit, assignments are in safe hands.
